6.

Why do I wish to be a Tusayan Councilmember?

I love this unique area and care for it deeply.

I want to see a Tusayan that is sustainable in all aspects. Sustainable both economically and environmentally, and that is safe for the both the adult/youth residents and the tourists it serves.

4.

3 Most important issues facing Tusayan and what approach I would take?

1. Continue to improve housing.

Approach: The company I work for has done this in the past year. Look at every option available for company and non-company improvements.

2. More services in the future. Examples: Better internet, natural gas, more parks and recreation. Protect some services that we have. Example: Clinic

Approach: Continue the work the town has begun on all of these fronts.

3. Tusayan is already heavily taxed by property taxes to support our local school. Keeping taxes at a rate that won't put companies out of business, in certain years, or make them uncompetitive in the area.

Approach: Continue to build a on the relationship with the school for this and other issues, and become more a part of each other's culture.
